Implementation of Library Automation System To Whom It May Concern

It gives me a great pleasure in mentioning about the software's provided by Saral Software Services, Nagpur to Sai College of Computer Education, Ranjni Tal. Kallam Dist. Osmanabad.

The Cloud based software contains the following modules

1) Cloudbased Library Automation System (Saral-Lib)

Using these packages it got easier to handle all the activities of Books Entry, Issue Return, NEWS Paper, Journals & Magzines, Patron Visitor, OPAC & all reports can be generated. Library Administration reports can also be created. In addition with this the other benefit is that it can maintain any number of accession register & students records yearly.

Software Version is 1.0 (Saral-Lib Cloud based Software)

The extensive training of all the packages was given by the team of the Saral Software Services. All the packages have been created successfully & cooperation of user is appreciated. Software training attends library staff successfully at college.

Thanks & Regards

(Aryan Bhotmange)
